City Health Officers Making Rounds of City Stores

With antimony poisoning already reported in Edmonton and definitely traced to the use of enamel ware in cooking, inspectors of the city health department were on Saturday making the rounds of hardware, departmental and other stores of the city asking that all enamelware bearing one particular trade name be withheld from sale until a thorough probe has been made. The inspectors are being made under the direction of City Medical Health Officer Dr. R. H. Jenkins.

Two shipments of the enamelware formerly linked up with the antimony poisoning have been received in Edmonton only one day back as last June and the other more recent date. It is understood that both shipments were handled in cut-rate and cheap merchandise stores.

## GUN THREATS IN REICHSTAG FIRE TRIAL

Bulgar Red Creates Tumult Before Expelled From Court

LIPZIG, Germany, Oct. 7.—Herr Georgi Dimitroff, shooting: "I wish I had a gun—I would use it," was expelled from the court room Friday after he had taunted the supreme court justices hearing the Reichstag fire trial and accused a policeman of being a liar.

The court room was thrown into a tumult and many of the spectators laughed as the defendant, former leader of the Bulgarian communists, by his tactics handicapped prosecution's efforts to make the charges of high treason against him and Elzbieta Popoff, another Bulgarian, stick.

This followed a continued trial by the defendant who had charged the court records had been falsified, and accused the police as "incompetent."

A short time later he called police commissioner Heug a liar after telling the court a document frequently being referred to was falsified.

## Car Gets Out of Control While Descending Constitution Hill From Hyde Park Corner—Injured Rushed to Hospital— King George Sends Equerry to Inquire About Their Conditions.

LONDON, Oct. 7.—One person was killed outright, another was injured fatally and at least seven were hurt seriously, today when an automobile struck a heap of rubble and added into a large crowd gathered outside Buckingham Palace, where the King in residence, to witness the colorful spectacle of changing the Palace guard.

Those badly hurt were taken to St. George's hospital nearby. King George sent an equerry there to inquire about their conditions. The others received treatment for superficial hurts and shock.

LAMP POST DEMOLISHED

The car got out of control while descending Constitution hill from Hyde Park corner. It succeeded a considerable distance in a mad course, and finished by demolishing the lamp post on the palace side of the road.

Persons standing several deep by the palace railings scattered hurriedly, but a number of them were hit and knocked down by the on-rushing vehicle.

Ambulances were rushed to the scene and took the injured to the hospital.

Changing the guard at the Palace was a popular daily spectacle when the royal family is in residence and a large crowd had gathered today as usual, to witness the picturesque ceremony.

SCREAMS ROSE

As the automobile skidded into the light post, it knocked down several persons while screams rose from the crowd. The guard band, which was playing the customary military march, stopped.

Two of those taken to the hospital were not detained. Another underwent amputation of both feet a few hours later. One had a compound fracture of both legs; another suffered a fractured skull and a broken right leg. Still another had a fractured leg.

The driver of the machine, F. H. Hills, suffered head injuries.

## "Valley Of Death" In Which More Than 36 Los Angeles Unemployed Perished In Fire

Thirty-six bodies were recovered and many more were believed to have perished in the raging inferno of flames which swept over Griffith Park, Los Angeles, last week. Most of those burned to death probably never will be identified. More than one hundred fire-fighters were taken to hospitals and treated for burns, some serious, after being trapped in a blind canyon which was enveloped by the blaze. This photo shows flame-seared survivors receiving treatment at the first aid station established just outside the fire area.

GRIFFITH STADIUM, WASHINGTON, Oct. 7.—McClintock's home run into the center field stands in the 10th inning of the fifth game ended the world series today as the Giants won their fourth victory over the Senators, 4 to 3, and the championship of the baseball world, four games to one.

By ALAN GOLD  
Associated Press Sports Writer  
GRIFFITH STADIUM, Washington, Oct. 7.—For the fifth and possibly the deciding game of the 1933 world series, the weather was clear and brisk for the renewed of the battle between the rampant New York Giants and the Washington Senators.

Leading by three games to one today, the Giants relied on their brilliant right hander, Hal Schumacher, while the Senators counted on their veteran, "General" Al Crowder. Schumacher gained the decision over Crowder in their first engagement last Wednesday.

Despite the excitement aroused by James J. Frawley, agent of the attorney general of Alberta, and Mr. Primrose, of Vegreville, the case continued for a speedy presentation to the Supreme Court of Canada.

It is likely that an application will be made to the court on Wednesday night, and the two men are now slated to pay the supreme penalty on October 30 for the murder and robbery of Walter J. Parnell, Mansville farmer.

Mr. Primrose has returned to Vegreville, but Mr. Frawley, when questioned Saturday, said that the legal agent for Alberta in Ottawa, Messrs. Henderson and Herdridge, and the full facts of the case are being sent them, while Primrose is no doubt arranging for representation for his clients.

## SINGLE MEN ARE TAKEN OFF RELIEF

Many Drumheller Families Seeking Relief From Charity Organizations

By A. F. KEY  
DRUMHELLER, Oct. 7.—All single men, with the exception of those likely to be employed in the mines this fall, have been cut off relief and given the opportunity to enter relief camps. The remainder of single men will be automatically cut off at the month-end. This new regulation applies to the entire Drumheller valley. City relief for families was discontinued on September 30 and a number of families are now seeking assistance from private charity organizations.

**MINERS HOLD OUT**  
When the whistle blew at Wayne's Excelsior mine, calling men to work on Monday there was no response. It is believed, to no assurance having been given by the mine management that wages would be forthcoming. Unable to meet its wages bill last year, the mine management offered a co-operative scheme which was accepted, but under that scheme the men found difficulty in collecting wages. Ideal mine was closed last year, paying its miners 50 per cent wages and placing the remaining 50 per cent in stock.

**CIRCULATION GAIN**  
Drumheller Public Library showed a slight gain in circulation during September over the same month of 1932, 1659 books being borrowed. A net membership gain of 1933 was also reported by Librarian C. H. Fries.

**Conscience Stricken Fugitive Turns Self In After 13 Years**

CLEVELAND, O., Oct. 7.—A 48-year-old workman walked into a newspaper office Friday and told a story of having killed a fellow worker in a Michigan lumber camp and of having escaped 13 years ago from the Marquette prison to which he was sentenced for murder in 1916.

He said his name was Ralph Thompson, but that he had gone under the name of Ralph Thompson since he escaped August 8, 1916. He married, helped to educate his children by a former marriage, but always the haunting fear of being captured, and returned to prison hung over him. So last night he told his wife and her children he was a former convict, a killer in the eyes of the law. Today he told his story to the newspaper. Michigan authorities said they would take Thompson back to prison.

## QUIET REIGNS IN COAL, STEEL STRIKE AREAS

National Guard Control Harrisburg Sector—Mines Closed

NEW YORK, Oct. 7.—Watchfulness replaced disorder and bloodshed yesterday at steel plants and coal mines as strikers and owners awaited the result of efforts to smooth over difficulties.

In Harrisburg, where 18 persons were wounded Thursday in an outburst of inter-union warfare, Donald R. Hargrove, counsel for the NRA, conferred with miners and owners, and reported that he saw hope for a solution of difficulties under the NRA bituminous coal code.

Six companies of the Illinois National Guard controlled Harrisburg scene of the shootings at Peabody mine No. 48. The strike was closed by Governor Horner to avoid fresh disturbances.

In other districts including Ambridge, Pa., where miners are on strike, and Scrubsville, O., where of mill workers' riots, quiet prevailed throughout the day.

**Spy Is No Friend Says Mussolini**

**SECOND MURDER LINKED TO BAHRREY**

SASKATOON, Oct. 7.—On trial for the murder of his brother, Bill Bahrey, brother of the accused man, today stood linked with a second slaying, the death of Lester Terechuk.

Verbal and written confessions allegedly made by Bahrey were admitted into the court records at his present trial yesterday. They concerned the death of Terechuk, victim of a straw pile murder. Alex Bahrey, brother of the accused man, met a similar death. The charged remains of both were found in the Whitlock district, early last spring.

Bill Bahrey already has been charged with the death of Terechuk, and the case set for a hearing at the present session here.

**Tax Budget Is Given Criticism**

MINNBURN, Oct. 7.—A largely attended meeting was held in the L.O.O.F. hall on Wednesday evening when Mr. H. E. Spencer, M.P. for Battle River, addressed the meeting.

He spoke particularly on results of the Imperial conference, unemployment conditions and the burden of heavy taxation. Mr. Spencer criticized the government strongly for the method of increased taxation to meet the deficit in the budget.

Mr. Spencer stated that there must be a greater purchasing power to absorb surplus goods and thus afford employment for the idle.

**England Goes To War With SCOTCH SOON**

Sham Naval Manoeuvres in Convoying to be Staged

LONDON, Oct. 7.—For 24 hours next week England and Scotland will be at war in the North Sea. Of the hundreds of the feet allowance the home fleet has a surplus which will permit exercising different from any held in recent years, but which will reproduce to some extent the situation which faced the Admiralty and Earl Beatty in 1917 and 1918, years when northwestern convoys regularly between Britain and Scandinavia.

The next week Scotland, with Cru-marty as its naval base, will occupy the same position as all Britain did during the war, that of having an expeditionary force on the other side of the North Sea, to which she is compelled to supply munitions. England, with a base on the Humber, will constitute the enemy whose forces are determined to hinder the flow of Scottish munitions.

The trial at Leipzig, Germany, of Martinus Van der Lubbe and four Communists accused of firing the Reichstag on February 27, 1933. The five men are charged with incendiarism and are likely to go to the gallows if found guilty. In the dock (second row) the citizens are, left to right: Ernst Torgler, German Communist, the Dutchman, Martinus van der Lubbe, who has confessed to the arson; (next row) the Bulgarian Rigas Dimitroff; Popov; Wasi Kostantinos; Tanov; George Dimitroff. In the front row second from right is Dr. Stack, counsel for the prisoners.

## CREDITORS FIGHT MACHRAY REFUND TO UNIVERSITY

OTTAWA, Oct. 7.—Probe into the Anderson Lake, B.C., flat plane crash on August 13 has resulted in the cancellation of the flying license of Pilot C. J. MacKenzie, the Department of National Defence officials stated last night.

The license of Pilot MacKenzie had been cancelled for "violation of air regulations." The department said. The enquiry had found that MacKenzie had been flying later in the evening than the "sun-down" regulations permitted, it was officially stated.

Three lives were lost in the crash at Anderson Lake, approximately 100 miles north of Vancouver city.

**FLEET PICTURES ITSELF**  
The home fleet will be divided to represent the Belligerents. Admiral Sir William Boyle, newly appointed commander-in-chief, will be in charge of the Scottish forces and Rear Admiral H. M. Colvin will command the southern enemy.

First duty of Admiral Colvin's force will be to hunt convoys as they are leaving Scotland. Some authorities say the Germans in War-time were surprised by underestimating, but admit nevertheless, that the Scottish forces presented an extremely difficult problem which, eventually, necessitated provision of a battle squadron for escort duty.

While it realizes any future naval war will yield problems peculiar to itself, the admiralty said to believe the question of convoy protection still will be predominant. Next week's exercises are expected to produce more in the nature of constructive work than a mere review of North Sea difficulties in 1917-18.

## ESSENCE IS AKIN TO "HTLERISM" SAYS DELEGATE

Formulation of Trade Treaty With Soviet Russia, Also Adequate Credit Facilities Urged.

HASTINGS, England, Oct. 7.—The Labor Party conference would up a week of oratory. Friday by adopting resolutions protesting Great Britain's Indian policy and urging the formulation of a trade treaty with the Soviet Union.

The Indian resolution, which also called for the release of all political prisoners, was in direct contrast to the vote of the Conservative party—the other leading British party—at Birmingham approving the cautious course of the government.

The Reverend H. Sorenson, moving the Indian declaration, said: "The operation of Imperialism in India is in essence no different from the operation of Hitlerism. We are appalled by what is happening to the Jews in Germany, but what has been happening in India is just as bad."

The trade resolution urged the granting of credit facilities to implement the treaty. J. Hodgkinson of Dudley, declared labor had to fight a constant stream of anti-Soviet propaganda and that "you cannot let and feather Soviet Russia without tarring and feathering the British Labor party."

The Labor party long has been friendly toward Russia. This stand was upheld by R. C. Wallhead, M.P., who said "their undiluted hatred of the principles upon which the union was founded" was responsible for the attitude toward that country.

# They Know Their Films; That's Why Edmonton Gets The Latest And Best Pictures

BELOW are shown the group of Edmonton theatre managers to whom this city and district look for the entertainment which has earned for Edmonton the name of being one of the best served amusement centres in Western Canada. Opening their Greater Movie and Entertainment season they have combined to bring to this city during the next few months all the latest and best productions from the leading studios not only of America and Great Britain,

but from every European film producing centre of importance. The result is that Edmonton can look forward to the greatest theatre season in history. "Not one week week" is the slogan of the theatre managers whose bookings are the talk of the film world in Canada. No expense has been spared and the pick of the producers' offerings have been booked for Edmonton with the world's most famous stars of the stage and screen being brought here in their

latest and most brilliant successes. So far forward looking has been the program mapped out by the local theatremen that many productions of magnitude will be showing in Edmonton even before they make their premiere appearance in New York. This is especially true of the British films, a strong representation of which have been booked to make their initial appearance in Canada in this city owing to the reputation Edmonton has gained among film

distribution agencies as a discriminating supporter of the best British productions. Without doubt the coming season will be a four star season for patrons of Edmonton's motion picture theatres, with each succeeding week bringing to local screens new picture sensations while they are still the talk of the production centres. That's why Edmonton is known in film distribution circles in Canada as the best amusement served city in the West.

## Lieutenant-Governor Walsh Is Keen

FILMS WHOLESOME AND EDUCATIONAL

### And Discriminating Patron Of Movies

HIS Honor, Lieutenant Governor W. L. Walsh of Alberta is one of Edmonton's movie fans. An ardent supporter of British films especially, but a keen and discriminating critic of all screen productions, His Honor seldom misses any outstanding film brought to this city. His views on what motion pictures mean as an entertainment and educational feature in the life of the people is therefore of interest, and in the following few lines His Honor has paid his tribute to Edmonton theatres and the productions they bring here.

I am a great admirer of the moving picture, particularly since they have taken their present form. "It is a wonderful thing to be in a comfortable chair in a comfortable theatre and watch through the medium of a picture some distant land which one might otherwise never see, and listen to an interesting description of it by one competent to describe it, or to see in action on the screen some world-wide figure and listen to the reproduction of the words that fall from his lips, or to see before one's eyes the very happening of some event which as a news item held one's attention at the time of its happening."

"Things like these all have their educational value, while there are always other scenes in the realm of fiction to stir the emotions."

"Edmonton is so well represented upon the fact that it has so many comfortable, commodious and well-equipped movie theatres which present to their clients a high class of pictures exactly in the same form as that in which they are exhibited in the larger cities of the continent."

(Sgd.) W. L. WALSH,  
Lieutenant Governor of Alberta.

## Another British Triumph Opening At Rialto Monday

### "Soldiers of the King" Is Greatest Comedy Burlesque of Year

Score another bull's eye for British films. Meted as a genuine triumph of screen entertainment and giving movie goers a chance to see Cleeley Courtneidge, England's "Queen of Comedy" at her brightest and best. "Soldiers of the King" which opens at the Rialto on Monday is another smart hit and holds fair to outrank all others in popularity and general acclaim.

Superb acting, hilarious comedy, tuneful song hits, shots of London life, the changing of the guard at Buckingham palace, the Grenadier Guards on parade, all the gay pomp and panoply of London at the height of the season combine to make this comedy burlesque outstanding in every particular.

"Soldiers of the King" concerns a Royal family of the stage and the theatrical and military sphere of the picture is realistic to a degree. All the military shots were taken on the parade grounds and in the barracks rooms of the Brigade of Guards, and not the least popular of the scenes are those showing these famous regiments on dress parade.

The fact that officers of the Majesty's Brigade of Guards are forbidden to marry actresses is the theme around which the story of "Soldiers of the King" is built, but when the "Queen" of a Royal family of the stage falls in love with a Royal gentleman things begin to happen, and they happen in such hilarious sequence that the audience is kept in a continual state of laughter. The dialogue of the film is scintillatingly brilliant, and with Edward Everett Horton, Hollywood's popular exponent of comedy playing opposite Miss Courtneidge and a wonderful supporting cast, "Soldiers of the King" has everything a comedy film should have and is sure to sack the Rialto next week. British born dramatists will find it especially diverting.

**MARSHALL EX-WARRIOR**  
Herbert Marshall, in Cecil B. De Mille's Paramount picture, "Four Frightened People," arrived in the British Army during the World War, receiving several wounds.

**STAR MIDGET COMEDIAN**  
Maurice Chevalier, star of Paramount's "The Way to Love," began his career as a boy in the "Midget Comedian."

**SINGERS AT PARAMOUNT**  
Two Japanese singers have been signed for native scenes in "Hell and High Water," a Paramount picture featuring Richard Arlen and Judith Allen.

## Continental Story Shows at Dreamland

Considerable interest attaches itself to the screen translation of Robert E. Sherwood's stage masterpiece, "Reunion in Vienna," which appeared Alfred Lunt and Lynn Fontanne with one of their most successful vehicles. The talking picture version of the noted play will be shown starting Monday at the Dreamland theatre with John Barrymore starred and Diana Wynyard, of "Cavalcade" fame, in the leading feminine role.

"Reunion in Vienna" is regarded as one of the most important undertakings of the present season, which may well be credited in view of the play's phenomenal success and the wide discussion it created when produced under the auspices of the Theatre Guild.

The play remains essentially the same as when produced on Broadway, the original version being elaborated on only in order to add movement and spectacle not inside possible within the narrow confines of the stage.

## Gem Books Week of High Grade Feature Films

Melton Nixon, Warner Brothers' star, who covered herself with film honors in her recent assignments playing opposite Will Rogers, steps into the realm of headlines players in her role in "A Private Scandal," which opens Monday at the Gem

theatre for a run of three days. Lord Hughes, versatile juvenile, who crashed the royal circle of Hollywood in pre-titles days as the second half of the famous Marx Actor-Lord Hughes starting combination that broke up after a second run of ten pictures, has the supporting role in "A Private Scandal."

For the latter half of the week, Thursday, Friday and Saturday, the popular cast, Jasper Avenue play-

house has booked an attractive double feature program, "The Big Chase" and "Hearts of Humanity."

CHICO LINES HIS LINEA  
Chico Marx spends all of his spare time between scenes of "Duck Soup," which the Marx Brothers are making for Paramount, on a nearby golf course. He shoots consistently in the middle eighties.

# Pay Large Part In Of Edmonton

## Leading Citizens Pay High Tribute To City Theatres

Officials Also Join in Praising Worth of Pictures From Every Viewpoint

That Edmonton theatre plays a large part in the social and cultural life of the city is recognized by leading men and women of the community.

Here are a few opinions of what Edmonton's theatres mean to the city and its citizens, gathered at random by Bulletin reporters who asked what Edmonton men and women thought of the bigger and better movie scene pledged by the theatre managers.

**Rev. R. G. Reid, provincial treasurer:** "It has long been recognized that theatrical performances of the approved type make a distinct contribution to the life of the community in a number of ways. The advent of the talking picture has greatly increased the possibilities in this direction.

"Good pictures and plays, cleverly screened and acted, have not only entertained but have also a very positive educational value."

**DENVER SUPPORT:** Mayor D. K. Knott: "Theatres have come rapidly to the fore during the past few years as the outstanding public entertainment during the year, and particularly during the fall and winter months."

As a laudatory organization, the theatres are making their contribution toward the welfare of Edmonton; they also provide work for a large number of wage-earners. Theatres are helping humanity more than ever in these times of stress. Those who are burdened with business worries may throw away from their shoulders for a few hours while they enjoy a visit to the movies.

"From the viewpoint of education talking films are perhaps the greatest medium for educating people discovered to date."

"For these reasons, and many others, Edmonton theatres deserve the support of citizens."

**Chief of Police, A. G. Shute:** "I have nothing but praise for the city theatres. They are a valuable asset to Edmonton's community life, disseminating considerable sums of money through pay rolls and city and provincial taxes. They also fill a distinct need for recreation which is vital to the life of a city during times such as these."

**John Blair, secretary of the Edmonton Chamber of Commerce:** "Theatres have attained a position which is most important in the business structure of any community. As a drawing card for business they stand alone in the field of entertainment."

"So important is the part they play in public life that in many cases businessmen have gone to the extent of subsidizing theatres in their communities."

**A BIG FACTOR:** Mack R. McCall, president of the Kinema Club: "It is in times such as we are at present passing through that the theatre is of greatest importance. It is in times such as these that the theatre is of greatest importance. It is in times such as these that the theatre is of greatest importance."

**Edmonton theatres are a big factor in the economic life of the city. Their property and business taxes contribute a big sum to the city revenue.**

**J. M. Van Slyke, president of the Compagnon Club of Edmonton:** "The most discriminating are pleased by the varied types of entertainment offered by Edmonton theatres," he said, "and we should support all their endeavors."

**Miss Munroe, superintendent of Nurses at the Royal Alexandra Hospital:** "Undoubtedly the theatre has a most important place in the life of the city."

**Mr. Will J. Ross, president of the Local Council of Women:** "The picture is a most important place in the life of the city."

Nazi Order Not Obeyed By Marlene

Denying reports that she is defying Chancellor Adolf Hitler of Germany in returning to the United States, Marlene Dietrich, actress, said today that she is not repudiating her German citizenship. She is reported to have ordered all actors and actresses of German blood to return to their native land.

CROSBY HEADS CAPITOL CAST OF TEN STARS

"Too Much Harmony" Has Pretty Show Girls by Score

Eight of the ten players appearing in "Too Much Harmony," the film which opens a three-day run at the Capitol Theatre today, were widely known in stage and radio entertainment before they entered motion pictures.

Blond Crosby, still America's best liked radio star, Jack Oakie, Skeets Gallagher, Kitty Kelly, Lily Van Tashman, Ned Sparks, Harry Green and Grace Bradley were Broadway stage favorites in musical comedy, all except Miss Bradley having played in either the "Tollies" or the "Vaseline."

Judith Allen, who has the lead opposite Crosby, and Shelley Grey are the only players whose training was limited to the legitimate stage before starting their picture work.

"Too Much Harmony," a national musical comedy in which the ten players appear, tells the story of the long tangle that all but ruins the Broadway show which features the film. Along the way, the star falls in love with Judith Allen, who comes to Broadway from a vaudeville act playing the "Tollies."

Arthur Johnston and Sam Coslow, authors of "Prize," "Learn to Sings," "Milk and Honey" and other hits, have written eight new melodies for the show. They include "Pack Up," "Box-Box," "The Day You Came Along," and "I Guess It Must Be to Be There." The show is produced by "Black Moonlight" and "The Wind," two elaborate production numbers.

Edmonton's picture theatres depict every phase of life. They are not only a source of pleasure, but also a source of education. They are a source of pleasure, but also a source of education. They are a source of pleasure, but also a source of education.

**Mr. E. P. Withwood, general secretary of the Y.W.C.A.:** "People need the recreation that the theatre supply. In this they do a great deal of good. The educational pictures are especially valuable from all points of view."

**Mr. Arthur Murphy, formerly woman magistrate and active in many phases of women's work:** "Wherever life is, wherever they never grow weary of going to a show, it is a perennial source of delight and education. On the whole the plays shown here are of high quality, and the public appreciates them. The theatre has a place in the community, and it is a place in the community, and it is a place in the community."

**ABSOLUTELY SAFE:** Fire Chief Albert Dettler: "There is absolutely no reason for a panic in any theatre or picture house in this city, as the managers have co-operated with this department in every way possible to safeguard their patrons."

**G. D. K. Niswender, president, Edmonton Gyro Club:** "When your golf club are parked away for the winter and your leisure hours in the evenings cannot be spent outdoors the 'talkies' find an important place in your calendar. Edmonton need take no second place in its standard of movie entertainment. It is therefore with happy anticipation that we can look forward to a theatre season that will bring to Edmonton some of the most spectacular plays with the top-notchers of film production."

**HIGH STANDARDS:** Ed. McGarvey, president of the Edmonton Kiwanis Club: "From the cultural as well as entertainment side, the theatres play an important part in our community life. They are institutions rendering a valuable service to the city, spreading sunshine where there might be sadness and keeping up the spirit of confidence as much needed in these times."

"Let us hope that public support will be in hearty response to the high standards which the theatres have established in Edmonton during past years."

**W. J. Hardy, secretary, Beneficent and Protective Order of Elks:** "Inasmuch as pictures shown on Alberta screens are strictly censored we are assured of wholesome entertainment. Edmonton is fortunate in having so many fine theatres. They show the best class of pictures and I feel that they are agents of much good."

**Princess Has College Film With Crooner**

The season's outstanding movie musical—a melodious, up-to-date comedy of college life as the old co-eds remember it, featuring a brilliant all-star cast in "College Humor," latest hit which comes today to the Princess Theatre.

Blond Crosby, Richard Arlen, Mary Carlisle, Jack Oakie, George Burns and Grace Allen, Coach Howard Jones of the University of Southern California, Lona Andre and Mary Fournier have the featured roles in the film. "The Road to Zenda," a story of chivalry and romance, is the feature. "The Road to Zenda" is a story of chivalry and romance, is the feature. "The Road to Zenda" is a story of chivalry and romance, is the feature.

"College Humor" is the average youth's dream of what college ought to be—a place where necking and football are the two principal forms of study, where the professors crowd to their classes, where all the male students are handsome and all the females beautiful.

Lion Man Stars At Empress

**BURTON CHAMBER:** recent "Lion Man" in the "King of the Jungle" has another big role in the Empress screen offering, Zane Grey's "To the Last Man," opening Monday.

**COMPLETES MOTOR TRIP:** George Hart has returned to Hollywood for his role in Paramount's "Bored" after a month's motor trip to New York.

**HELEN QUITS STUDIO:** At her own request, Helen Twelvetree has been released from her Paramount contract.

**What Theatres Mean To City**

An annual payroll of \$200,000 a year, distributed among 60 heads of families, all with their homes in Edmonton, in addition to a number of single men and women.

They pay an average of \$11,000 a year to the city light and power department.

They pay taxes, including business and license taxes, of \$30,000 a year.

They pay rentals, mostly to local owners, of \$100,000 a year.

They have an investment in property and equipment of \$130,000.

They are one of Edmonton's biggest industries.

They bring in visitors from outside cities, every one of whom is a potential customer for Edmonton stores, cafes, hotels and other business houses.

They provide a nightly seating capacity of 8,000 seats, in comfortable, commodious, fully protected and up-to-the-minute theatres where Edmonton residents can go for the same high class productions that are available in any metropolitan centre on the continent, and at reasonable prices.

and the solvent of our largest banks, frightened all the commercial banks of this country. Canada and Europe into calling every loan that could be called in, and every man at his disposal, regardless of consequences to the borrower, in settling the most drastic and ruthless campaign of uncontrolled and ill-considered liquidation our production and distributive activity has ever been subjected to.

**DEPRESSION UNBENEFICIAL**  
This tragic and unnecessary depression with its untold suffering is uncomprehended and staggering loss to the natural and inevitable result.

There were no other major contributing factors. Every depression we have ever known has been due to this one cause, the contraction of bank credit.

We cannot have our pie and eat it too.

We can either pay our loans to the banks or have the credit in circulation, in payment for the continuous exchange of goods and services, but we cannot do both.

Just as long as the commercial banks of this country limit on withdrawing credit from circulation by withholding their loans to diversify commerce and industry just as long will business be in a state of decline. It cannot be otherwise. It is just a simple matter of mathematics. It ought to be self-evident.

"Every \$1,000 loan paid to the bank means that a continuous chain of transaction from \$4,000 to \$50,000 per annum is lost."

Every loan of \$1,000 granted by any bank immediately sets in motion a chain of transactions amounting to \$4,000 to \$50,000 per annum. If one bank calls a loan, the other banks grant a new loan of the same amount, and the business of the nation is unchanged.

Granting a loan to you by a bank and placing the net proceeds to your credit in your deposit account is equivalent to issuing that amount of new money and putting it in circulation.

You immediately spend it by drawing checks against the credit, and the person who receives the checks deposits them just as though they were cash, and so on—so rapidly that the average turnover for the whole of our commercial banks runs between 40 to 50 times per annum.

**MEASURE OF PROSPERITY**  
The total of these transactions is our total business, the measure of our prosperity. The total of deposits in all banks is our total working capital, our total medium of exchange.

Now listen to this—ALL OF OUR DEPOSITS IN ALL OF OUR BANKS ARE BACKED BY THE PROCEEDS OF LOANS GRANTED BY BANKS SOMEWHERE IN THIS NATION. THE BANKS ARE BANK SOMEWHERE HOLDING SOMEWHERE NOTE FOR EACH DOLLAR.

Both the cash and the checks you deposit were drawn out of some bank by someone who had a deposit. He may have borrowed the credit from the bank or he may have received it from someone who borrowed it, or it may go back through a chain of a thousand people who have paid it, or received it, or who you face it back far enough you will find it is a loan in a loan by some bank.

We have no other medium of exchange.

## Rumor Reports Rift In Royal Romance

Court circles at Brussels are buzzing with a report of a rift in the domestic affairs of Crown Prince Umberto of Italy and his wife, the former Princess Marie Jose of Belgium. The recent visit of Premier de Broqueville of Belgium to Rome, it is asserted, was for the purpose of urging Premier Mussolini and Pope Pius XI to intercede to forestall a possible divorce. The crown prince and princess are pictured during a royal reception.

## COTTON CROWDER ON HIS TOP

**Credit Corporation Is Roosevelt's First Move to Raise Prices**

WASHINGTON, Oct. 7.—President Roosevelt announced yesterday that the first concrete move in his latest effort to raise commodity prices and ease farm purchasing power would be the immediate creation of a credit corporation to lend to United States farmers on crop security.

The corporation will have an initial capitalization of \$5,000,000, and the first duty will be to carry out the administration's promise to lend cotton farmers 10 cents a pound on their present crop if they agree to join in the campaign designed to reduce acreage by 50 per cent next year.

The corporation will have authority to lend on other commodities, but after the cotton crop now being considered for lending.
